

Anupama Shahane, MD, MPH

Dr Anupama Shahane is an Assistant Professor of Clinical Medicine in the Division of Rheumatology at the University of Pennsylvania in Philadelphia. Dr Shahane received her medical degree from Seth G.S. Medical School and K.E.M. Hospital, a highly reputed medical school in Mumbai, India. She received a Masters in Public Health majoring in clinical epidemiology at the State University of New York in Albany, where she completed her internship at the New York State Department of Health. She then pursued her clinical training and completed her Internal Medicine Residency at St. Luke's Roosevelt Hospital, an affiliate of Columbia University, followed by Rheumatology fellowship at the Cleveland Clinic, Cleveland. During her fellowship she also obtained her certification in Clinical Densitometry. On completion of her fellowship, she joined the Division of Rheumatology at the University of Pennsylvania as medical staff, Assistant Professor, where she has played a stellar role in establishing a state of the art satellite facility at Valley Forge. She is actively involved in teaching and is co-course director of "How to be a Rheumatologist". She also lectures at the national First Year Fellows rheumatology conference held annually. She is actively involved with the Lupus Program at the University of Pennsylvania. She has authored articles and book chapters along with presentations in local and national forums during the course of her career.
